Dear Sirs,

We Gulf Star Oil is a company involved in recovery and recycling of oil sludge and have learnt about your "Blowdec" process can you please contact us. We are interested to purchase a few of you reactors and or a right to the technology.

I would also very much value a price indication for a plant as described at 41st International Petroleum Conference in Bratislava October 2003.

Yours truly,

Anders Olsson

Director

Gulf Star Oil Ltd
